

15. The current number of EPEAT registered desktops, monitors, integrated systems and notebook products is:

40% A. Less than 25

29% B. Between 250 and 500

13% C. Between 500 and 750

18% D. More than 750

Answer: Currently 633 products are registered on the EPEAT site.

16. Without guessing, what was the percentage increase in your data center energy bill last year?

6% A. Less than 5%

15% B. Between 5 and 10%

9% C. Between 10 and 15%

24% D. Over 16%

24% E. Not sure

23% F. Not my problem, someone else pays

Answer: EPA published average across the U.S. for 2005-2006 was 10%

17. In 2005 the EPA estimated that the United States generated 2.63 million tons of e-waste. How much was recycled?

45% A. Less than 5 %

38% B. Between 10 and 15%

13% C. Between 15 and 30%

5% D. Between 30 and 45%

Answer: 12.5% was collected for recycling. The other 87.5% went to landfills and incinerators, despite the fact that hazardous chemicals can leach into the groundwater and streams, or that burning plastics in electronics can emit dioxin.
